Version 25

AXEL LARSSON 

Customized automation solutions for all types of process applications

With us, you get access to the combined expertise of one of the Nordic region's leading suppliers of valves and instruments. Various types of automation solutions are a central part of our business, where our workshop assembles more than 30,000 complete valve packages annually, in a wide range of designs. Through our experience with all kinds of industrial processes, we meet the requirements of different industries and can develop customized solutions tailored to your company's specific needs. With a focus on high quality, we represent around fifty very well-established manufacturers, primarily from Europe, Asia, and the USA. We offer technical advice, a very extensive valve library in 3D CAD, as well as various types of tests and certificates before delivery from our warehouse. In addition, we provide valve services, are quality certified according to ISO 9001 and ISO 14001, have the highest credit rating, AAA. Do you have questions about a specific application or want to discuss a technical solution for an upcoming project? Welcome to contact us – a growing family business in its third generation, founded in 1949.
